Dear Sir, My sons and I recently traveled to our vacation home on Middle Caicos of the Turks and Caicos Islands in the Caribbean. While there we went beach combing on the Island of Joe Grant Cay. It was there that we found your bottle with (2) maps, a note with this address and 9 beans. It was found on May 28th 2007, buried in the sand approximately 10 yards from the ocean edge.

We would appreciate it if you could find the time to respond to this inquiry. The note has two different dates for the bottle drop one of July 1988 and one of July 1998. Which date did the drop occur?

What is the significance of the beans. What are they?

The maps are very brittle but the note came over in perfect condition.

We tried the e-mail address, which appears to no longer be active.

Our e-mail address here is: bufflyn@aol.com

Our mailing address is

Robert S. Buffington,
3136 Myers Lane,
Makanda, Illinois
62958.

We would appreciate a response to this letter.

We find it amazing that this bottle arrived intact after such a long trip at sea.

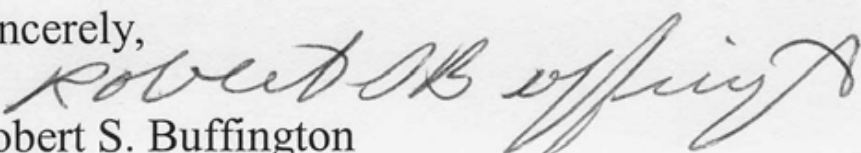

How many were placed in the ocean?

How many have you received responses from?

What locations on the earth were they retrieved and when?

Thank you in advance for your considerate response.

Sincerely,

Robert S. Buffington
